

## FRATERNIDAD DE ESLOVAQUIA

---

### *Informe*

#### **FRATERNITY OF SLOVAKIA - REPORT**

---

The focus of the Piarist Fraternity in Slovakia is on two areas - the formation of teachers and parents and the evangelization of the youth. The majority of activities are connected to Piarist schools, where we aim at the fulfillment of the new direction of our schools - with the focus on the piarist values in everyday life.

Nowadays, the Fraternity has almost 60 members. The formation of the members is done by regular meetings in small groups and the regular common meetings of all the small groups together, usually four times a year. The Fraternity provides the ministry at many levels - at the online promotion of the Piarist order and our schools, the publication activities, and the adaptation of the activities during the COVID 19 pandemic. We are helping with the streaming of the children's Holy mass with more than 2.000 followers audience. Furthermore, we are helping with the streaming of the worship nights, posting the education materials, and podcasts focused on religious topics.

There are three schools in Slovakia - in Prievidza, in Nitra, and Trenčín. The Slovak Fraternity has not been formed in Trenčín yet and that was the challenge of the previous time before the pandemic - to help established the Fraternity group in Piarist school and the town of Trenčín.

We are moving slowly and waiting for improvement in this situation.
